Director
Global Air and Missile Defense
Missile Defense and Protective Systems
Northrop Grumman Mission Systems

Kenneth “Kenn” Todorov is the Director of Global Air and Missile Defense for the Missile Defense and Protective Systems division within the Northrop Grumman Mission Systems sector. He is responsible for strategic planning, capture program management and sales growth in the international arena for Integrated Air and Missile Defense (IAMD) Command, Control, Communications, Computers, and Intelligence (C4I) systems. His responsibilities also include leading the division’s business development activities related to the U.S. Missile Defense Agency.

Before joining Northrop Grumman, Kenn concluded a 30 year career of service in the United States Air Force retiring in the rank of Brigadier General. He most recently served as the deputy director of the Missile Defense Agency (MDA), Office of the Secretary of Defense, and advised the director of the MDA in the fielding of the Ballistic Missile Defense System (BMDS), providing leadership of critical aspects of worldwide operational missile defense systems. As a general officer, Kenn also directed the Department of Defense’s Joint Integrated Air and Missile Defense Organization, and held key leadership positions at United States Northern Command and North American Aerospace Defense Command.

During his Air Force career, Kenn served as a Combat Search and Rescue and Special Operations pilot at a number of locations and assignments around the world. From 2007 to 2009 he commanded the Air Force’s “Flying Tigers,” where he led 6,200 people, and was responsible for organizing, training, and equipping airmen for combat operations in Iraq, Afghanistan, and the Horn of Africa.

He holds a bachelor’s degree from Siena College as well as master’s degrees in business administration from the National University, national security from the Naval War College and strategic studies from the Air War College. Kenn is also a non-resident expert in the national security and missile defense projects at the Center for Strategic and International Studies in Washington, D.C.

Northrop Grumman is a leading global security company providing innovative systems, products and solutions in autonomous systems, cyber, C4ISR, and logistics and modernization to government and commercial customers worldwide. Please visit www.northropgrumman.com for more information.
