

## Major IDM Initiatives Rely on Northrop Grumman

Our solutions meet a wide range of IDM needs – from HSPD – 12/FIPS 201 support to advanced fingerprint identification technology for police departments in the United Kingdom, Northrop Grumman also serves as the prime contractor for the Federation for Identity and Cross Credentialing (FIXs) program.

Our many Identity Management customers include:

- U.S. Department of the Treasury
- U.S. Department of State
- Federal Bureau of Investigation
- General Services Administration
- U.S. Department of Homeland Security (CISASC)
- U.S. Department of Defense
- The United Kingdom

Northrop Grumman Information Systems is a leading global provider of advanced solutions that deliver timely, enabling information to where it is needed most, for the benefit of its military, intelligence, civilian, state and local and commercial customers. We are a \$10 billion business employing approximately 35,000 employees with offices in 50 states and 18 countries.

*The Right Solutions,  
The Right Results*

scanning...

**N**orthrop Grumman is a leading designer and integrator of enterprise Identity Management Systems (IDMS). Our systems are deployed worldwide, serving government organizations at every level, as well as private-sector corporations.

Over the past several years, Northrop Grumman has made a major investment in building a world class identification and authentication practice. This investment has made us a recognized force for innovation, thought leadership and trusted results in the IDMS.

### Full Service Capabilities

From point solutions to turnkey IDM systems, our capabilities encompass the design, integration and implementation of IDM solutions utilizing COTS “best of breed” technologies. They include:

- IDM Infrastructure
- Directory Consolidation
- Public Key Infrastructure
- Registration and Enrollment
- Credential Issuance
- Credential Management
- Physical and logical access control (card-based, biometric-based, RFID and FIPS 201)
- Biometrics

To assure the best IDM solution for your requirement, we provide complete professional and engineering services:

- Requirements Definition
- System design and integration
- Process engineering/workflow design
- Data modeling and design
- Program and project management
- Operations management
- Security policy and procedure design
- Security certification and accreditation
- Policy and regulatory compliance audits

### Northrop Grumman Quality

**Center for Smart Security.** Our advanced integration center develops concepts, integrates and tests industry leading IDM commercial off-the-shelf (COTS) products, prototypes solutions and validates performance before implementation.

**Big-Picture Process.** We focus on a forward-looking enterprise process that meets your near-term IDM, mission and business needs, while accommodating scalability requirements, future technology and life-cycle issues.

**Large-Scale Scope.** Northrop Grumman specializes in and has successfully delivered large-scale federated identity management systems.

**Expert Program Management.** We consistently meet and exceed the expectations of our federal civilian customers.

### Enterprise Value on the Path to Enterprise Security

Northrop Grumman provides IDM and security solutions that offer tangible value for your enterprise.

#### Increase Security & Lower Costs

- Integrate credential-based logical and physical access control effectively across all your operations
- Integrate to operate as one IDM infrastructure

#### Achieve Compliance

- Help meet or exceed regulatory compliance: HSPD-12, PIV-I, FIPS 201, FISMA, GLB

#### Enhance Information Sharing

- Reduce content errors and redundancy across the IDM enterprise

#### Reducing Development Time and Lower Risk

- Tap our knowledge of COTS products and vendors. 12 Years Experience – 100 Implementation – 500 Dedicated Professionals

#### Increase Productivity

- Save time with proven process for provisioning and granting user access
