Medicare Beneficiary Database Suite of Systems (MBDSS): Accountable Care Organization (ACO) Pilot

**Solution:**
Suite of mission critical applications that are the cornerstone of data exchange for several Medicare business processes/partners
Program is designed to facilitate coordination and cooperation among providers to improve the quality of care for Medicare Fee-For-Service beneficiaries and reduce unnecessary costs.

- The Pioneer/Medicare Shared Savings Program Accountable Care Organization Model is one of the first ACO pilots for CMS.
- Northrop Grumman is developing a Master Data Management system that will provide secure linkage and data dissemination to support the start up of the Pioneer/Medicare Shared Saving Program ACO Model:
  - Supports managed care enrollments and payments to Medicare Advantage (MA) Plans
  - Supports the processing of Medicare Part D Prescription Drug Benefit enrollments
