Erick Munoz is the Northrop Grumman Aerospace Systems Flight Operations team lead for the Global Hawk Flight Test Program at Edwards Air Force Base, Calif., Northrop Grumman is a premier provider of manned and unmanned aircraft, space systems, missile systems and advanced technologies critical to our nation’s security.

In addition to his duties as a test pilot, Munoz leads a team of a dozen pilots and mission planners, performing flight test of the Air Force’s RQ-4B Global Hawk. He is responsible for scheduling the pilots’ day-to-day program operations and ensures all team members receive the necessary training to complete their duties.

Prior to joining Northrop Grumman, Munoz was on active duty in the U.S. Air Force as a MQ-1B Predator pilot assigned to Creech Air Force Base, Nev. He flew in Operations Iraqi Freedom and Operation Enduring Freedom while assigned to Creech, and accumulated more than 400 hours flying combat support missions in the Predator. Before that, he was assigned to McChord Air Force Base, Wash., as a C-141B pilot and flew airlift missions around the world.

Munoz received his commission as a second lieutenant after graduating the U.S Air Force Academy in Colorado Springs in 1998, where he earned a bachelor’s degree in chemistry. He is currently working on a master’s degree in systems engineering from Steven’s Institute of Technology.

Northrop Grumman is a leading global security company providing innovative systems, products and solutions in aerospace, electronics, information systems and technical services to government and commercial customers worldwide. Please visit www.northropgrumman.com for more information.
