Food Safety: National Outbreak Response System (NORS) & FoodNet

Solution: Detection and analysis of foodborne threats through systematic monitoring and outbreak response.
Northrop Grumman developed the National Outbreak Response (NORS) for the Centers for Disease Control and Prevention (CDC). FoodNet is a collaborate project with the CDC, ten state health departments, the U.S. Department of Agriculture (USDA), and the Food and Drug Administration (FDA).

- National Outbreak Response System (NORS)
  - Tracks foodborne, waterborne, human-to-human, and animal-to-human disease outbreaks
  - Allows users to seamlessly access and analyze complex disease outbreak data in an intuitive web interface

- FoodNet
  - Provides sentinel surveillance data on the ten most common foodborne pathogens from ten collaborating states
