Quick Mission™

Cost-effective,
mission-focused
design that enables
persistent ISR

THE VALUE OF PERFORMANCE.

NORTHROP GRUMMAN

Quick Mission™

Quick Mission™ is a mission-focused, multisource ISR solution that drives cost efficiency through a platform- and sensor-agnostic system engineered to support multiple missions safely. The flexibility of this open system will enable agile responses to continually evolving threats now and in the future.

- Mission-focused engineering
- Cost-effective acquisition and total ownership
- Flexible, standards-based open systems
- Adaptive to threat/technology
- Minimum aircraft modification reduces risk and cost
- Persistent surveillance with improved loiter time
- Agnostic to platform and sensor
- Highly flexible employment options
- Modular plug and play
- Preconfigured process assuring:
 - Safety
 - Cosite
 - Calibration
 - Airworthiness
 - Information assurance
