

Calibration Procedure Modules **Individually priced / site**

CAT# *See attached list for individual catalog numbers and prices.*

Hundreds of Calibration Procedure Modules are used in conjunction with Test Manager. New calibration modules are added to our catalog on a continuous basis. For custom Calibration Procedure Modules, discuss your needs with our staff. All Calibration Procedure Module orders for a site include a current set of Instrument Drivers at no charge. License is for multiple installations or networked users at one site and requires at least one Test Manager License to be functional.

Test Manager **Price: \$6,600 /station**

CAT# **ACS-H1-TMGR25**

Automated Metrology Software that runs individual Calibration Procedure Modules to perform equipment verifications. Includes a Test Executive, a User's Guide file, plus a keyless Runtime-only version of TransEra HTBasic. One year of complementary Software Maintenance Service is also included in the initial purchase for each site. License is for one installation running on one PC.

RF Components Support Package **Price: \$6,000 /site**

CAT# **CAL-H1-000RFCMP02**

An add-on package of easy-to-use software for calibrating a wide variety of RF Components. This package includes pre-defined Calibration Procedures for: Fixed, Decade, and Programmable Attenuators; Directional Bridges, 3-Port Couplers, Dual Directional Couplers, Hybrid Junctions, and Terminations. Customers can also create custom test profiles to support individual devices under test. To assist with this tailoring, we have included example test profiles for over 100 specific RF Component-related measurements. Engineers and technicians, behind password access, can quickly develop special calibration procedures for your specific laboratory needs. We continue to make use of our flexible standards feature to support the Receivers, Scalar, and Vector Network Analyzers as measurement standards. License is for multiple installations or networked users at one site and requires one Test Manager License to be functional.

Software Maintenance Service **Price: \$2,000 /site/year**

CAT# **ACS-H1-SOFTWARE51**

This service supports one site for one year, covering multiple Test Manager Systems (Test Manager, Support Packages, and Instrument Drivers) plus CP Modules. It includes updates for use in all copies of the Test Manager operating systems, including drivers, purchased for one laboratory site, plus Calibration Procedure Modules. Software updates may include any or all of the following: corrections of problems, added functionality, or performance improvements. Free telephone support for: normal software usage, clarification of documentation, and resolution of software problems is also included. This support is provided by calling SureCAL Products at 410-993-5000 (or 1-800-913-3773 within the USA) between 0830 and 1630 Eastern Time, on normal business days (Monday through Friday).

System Engineering Service **Price: \$201 /hour**

CAT# **ACS-H1-ENGINEER50**

(plus travel allowance)

We offer assistance in the successful implementation of an Automated Metrology System for your facility. This includes an evaluation of your current calibration process and recommendations for the best automated solutions for your facility. This service also provides technical assistance in the design, network selection, and installation process at your facility. Travel allowance (if applicable) includes transportation, lodging, meals, and travel time.

If you have any questions or need additional information, please call us at 1-800-913-3773.
